

## CJENIK SPECIFIČNIH BIOKEMIJSKIH PAKETA

|                                           |                                                                                                                                                                                                                                                            |       |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| PAKET MONONUKLEOZA                        | KKS, CRP, AST, ALT, GGT, LDH                                                                                                                                                                                                                               | 25 €  |
| PAKET MONONUKLEOZA - PROŠIRENI            | KKS, CRP, AST, ALT, GGT, LDH, EBV VCAIgG, VCAIgM, EAIGG, EBNAIgG                                                                                                                                                                                           | 80 €  |
| PAKET MONONUKLEOZA MONO heterofilna At    | KKS, CRP, AST, ALT, GGT, LDH, mononukleoza - EBV heterofilna IGM protutijela                                                                                                                                                                               | 46 €  |
| PAKET ANEMIJA                             | KKS, ŽELJEZO, UIBC, TIBC, FERITIN                                                                                                                                                                                                                          | 27 €  |
| PAKET AKNE                                | FSH, LH, TESTOSTERON, SLOBODNI TESTOSTERON, SHBG, PROLAKTIN, ANDROSTENDION, DHEAS, E2 (2.-5. dan), PROGESTERON (21. dan)                                                                                                                                   | 155 € |
| PAKET ISPADANJE KOSE                      | TSH, Anti TPO, Anti TG, KORTIZOL, OGTT, INZULIN (0' i nakon opterećenja), VITAMIN D, ŽELJEZO, UIBC, TIBC, FERITIN                                                                                                                                          | 149 € |
| PAKET KARDIO                              | hs TROPONIN I, CK, TRIGLICERIDI, KOLESTEROL, HDL, LDL, TSH                                                                                                                                                                                                 | 45 €  |
| PAKET REUMA                               | KKS, SE, CRP, Anti CCP, RF                                                                                                                                                                                                                                 | 55 €  |
| PAKET ŠTITNJAČA - SCREENING               | TSH, ft4 i Anti TPO                                                                                                                                                                                                                                        | 40 €  |
| PAKET ŠTITNJAČA - OSNOVNI 1               | TSH, ft3, ft4                                                                                                                                                                                                                                              | 26 €  |
| PAKET ŠTITNJAČA - OSNOVNI 2               | TSH, T3,T4, ft3, ft4                                                                                                                                                                                                                                       | 44 €  |
| PAKET ŠTITNJAČA - PROŠIRENI               | TSH, ft3, ft4, Anti-Tg, Anti-TPO                                                                                                                                                                                                                           | 70 €  |
| PAKET ŠTITNJAČA - KOMPLET                 | TSH, T3,T4, ft3,ft4, Anti-Tg, Anti-TPO                                                                                                                                                                                                                     | 88 €  |
| PAKET HORMONALNA TERAPIJA (KONTRACEPCIJA) | KKS, GLUKOZA, KOLESTEROL, TRIGLICERIDI, HDL, LDL, AST, ALT, GGT, BILIRUBIN, PV, APTV, FIBRINOGEN                                                                                                                                                           | 48 €  |
| PAKET POLICISTIČNI JAJNICI                | FSH, LH, TESTOSTERON, SLOBODNI TESTOSTERON, SHBG, PROLAKTIN, ANDROSTENDION, DHEAS, E2, TSH, ft3, ft4, OGTT, INZULIN (0' i nakon opterećenja)                                                                                                               | 190 € |
| PAKET KARCINOM TESTISA                    | βHCG, AFP, LDH                                                                                                                                                                                                                                             | 39 €  |
| PAKET LJEPOTA I ZDRAVLJE (M/Ž)            | KKS, ŽELJEZO, UIBC, TIBC, FERITIN, T4, TSH, TESTOSTERON (UK. I SLOB.), IgE (UK.), VITAMIN D/ B12/ B6/ B3/ BIOTIN/ E, CINK                                                                                                                                  | 390 € |
| PAKET LJEPOTA I ZDRAVLJE PROŠIRENI (Ž)    | KKS, ŽELJEZO, UIBC, TIBC, FERITIN, T4, TSH, VITAMIN D, KOLESTEROL, HDL, LDL, TRIGLICERIDI, IgE(UK.), GLUKOZA, Anti-Tg, Anti-TPO, FSH, LH, PROLAKTIN, ESTRADIOL, PROGESTERON, ANDROSTENDION, DHEA-S, VITAMIN B12/ B6/ B3/ E, BIOTIN, CINK, Ttg-IgA, EMA-IgA | 630 € |
| PAKET 1 - POST COVID                      | hs TROPONIN I, NT pro BNP, VITAMIN D (25 OH VIT. D), D-DIMER, TSH                                                                                                                                                                                          | 120 € |
| PAKET 2 - POST COVID                      | hs TROPONIN I, NT pro BNP, VITAMIN D (25 OH VIT. D), D-DIMER, TSH, KREATININ, UREA, eGFR, HbA1c, FERITIN, FIBRINOGEN                                                                                                                                       | 155 € |
| PAKET 3 - POST COVID                      | hs TROPONIN I, NT pro BNP, VITAMIN D (25 OH VIT. D), D-DIMER, TSH, KREATININ, UREA, eGFR, HbA1c, FERITIN, FIBRINOGEN, KKS, CRP, PV, APTV, KALIJ, NATRIJ, KALCIJ, AST, ALT, GGT, ALP, LDH, CK, KOLESTEROL, TRIGLICERIDI, HDL, LDL, BILIRUBIN, GLUKOZA       | 255 € |
